Digital Terrestrial TV Receiver

**A simple way to
get digital TV**

NOKIA
110 T
Mediamaster

Easy access to free-to-air TV and radio channels

Operates with your existing TV and aerial*

No subscription needed

Supports normal and widescreen TV formats

High quality digital picture and sound

Automatic first-time installation

Portable for use at different locations

Easy-to-use Nokia Navi™ Bars user menu

Fast channel zapping

Super fast teletext

Classic, stylish and surprisingly compact: the Nokia Mediamaster 110 T is a perfect addition to your home.

Effortless first-time automatic installation means that you and your family can start enjoying high quality digital picture and sound straight away.

Maybe you want digital TV in your summer home or caravan? The Nokia Active Indoor Antenna is the perfect choice to complement your Nokia Mediamaster 110 T.

It really is easy to go digital

The Nokia Mediamaster 110 T is the simple way to convert your existing analogue TV and aerial to receive digital TV. You don't need to pay for a subscription to enjoy free-to-air TV channels and you don't need a satellite dish or a cable connection. In fact you can enter the new world of digital TV with the Nokia Mediamaster 110 T through your existing rooftop or indoor aerial*.

Digital television can give you new channels and a whole new variety of content: entertainment, sports, news, movies, you name it. It's all at your fingertips and the Nokia Mediamaster 110T is all you need.

Digital quality means a higher viewing experience

With the Nokia Mediamaster 110 T and access to digital free-to-air television channels, you can enjoy the high quality digital experience, which means a sharper picture and clearer sound. The Nokia Mediamaster 110 T supports normal and widescreen TV formats so you can see your favorite movies the way they were meant to be shown. Digital television also gives you extras like DVB subtitling** and super fast Teletext to enhance your viewing experience.

*The availability of digital reception may depend on the type and condition of your existing aerial. Aerial upgrade may be required. If in doubt consult your Nokia Mediamaster dealer for advice.

**Availability of DVB Subtitles depends on the country and operator.

Automatic installation sets you up first time

Installing the Nokia Mediamaster 110 T couldn't be simpler. There is automatic language recognition and an automatic channel search that quickly finds all the available channels for you. And, just in case your TV doesn't have a SCART connection, there is an RF connector. It's good to know you've got the handy essentials you need to get watching digital terrestrial TV straight away!

Now you can watch digital TV away from the lounge

The elegant Nokia design means the Nokia Mediamaster 110 T will please even the most demanding eye. It is surprisingly compact and finished in attractive silver to fit seamlessly into your home. It is so convenient, practical and portable that you can even take it with you and switch on digital TV in your summer cottage. The low power consumption is also great for use on your boat or in your caravan. Or maybe you need a second digital TV receiver for the kids' bedroom or the kitchen? The Nokia Mediamaster 110 T gives you the assurance of high quality Nokia design and the features you need. You can plug it into a normal rooftop antenna or into an indoor aerial like the Nokia Active Indoor Antenna (available separately) and watch your favorite channels at your holiday location as well as in your home!

Let the Nokia Navi™ Bars user menu guide you

Nokia Navi™ Bars is the new generation of user menus with a fresh new look and a simple, intuitive feel. Zapping and surfing for your

favorite channels is easy and fast. You will enjoy a fully automatic channel set-up and you can create personal favorites lists for all the family so everyone can quickly find their own channels and programs.
